Fort Wayne Chiropractor – Busch Chiropractic

**Your Journey Towards a Pain-Free
Life Begins Here.**

Looking for a **chiropractor in Fort Wayne**? If you suffer from back pain, neck pain or neuropathy, carpal tunnel, or knee pain, you're not alone. Most of our chronic pain patients have tried everything to find pain relief – from addictive medications, epidurals, and even neck or **back surgery**. As the leader in the non-surgical treatment of chronic pain, **Fort Wayne Chiropractor**, Busch Chiropractic, offers safe, effective, non-surgical treatments for the relief of chronic pain conditions including **back pain**, **neck pain**, herniated disc, sciatica, degenerative disc disease, and peripheral neuropathy pain and numbness.

Home of the DRS Protocol® for the safe, noninvasive, and pain-free treatment of chronic neck and back pain conditions.

Pain Relief – Chiropractic Clinic In Fort Wayne

Stop Living In Pain

Do you suffer from chronic back pain, neck pain, knee pain, neuropathy, or other chronic pain conditions? Are you tired of dealing with the pain and symptoms? Have you tried everything to get relief including addictive medications, epidurals, and spinal injections, told that that surgery is your only option or to just live with the pain?

No Surgery, No Drugs, Just Relief!

Surgery, drugs, and living with pain are not your only options! As a “Patient-Centered Healthcare” clinic, we offer some of the most effective nonsurgical, non-invasive treatments available for **pain relief** from chronic disc conditions and provide treatment without the use of drugs or invasive procedures. Nationally recognized chiropractor, Dr. Richard E. Busch III, and his team at Busch Chiropractic in Fort Wayne have helped thousands of patients suffering from chronic pain conditions get their lives back without invasive procedures or harmful medications.

WHERE IS YOUR PAIN?

Explore your symptoms and find potential treatment solutions with our interactive pain point guide. Simply

click on the area of the silhouette below where you're experiencing pain, numbness, or tingling sensations to discover potential causes and our effective, non-invasive treatment options.

Nonsurgical

Pain Relief

As a “Patient-Centered Healthcare” chiropractic clinic, we focus on nonsurgical **pain relief** from acute and chronic pain conditions. We provide pain relief treatments for the following conditions, and more.

- herniated discs or bulging disc
- degenerative disc disease
- sciatica
- spinal stenosis
- facet syndrome
- neuropathy
- carpal tunnel
- knee pain
- numbness & tingling in the arms or legs

- failed neck or back surgery
- low back pain and neck pain of any kind

Our Patients are the Proof!

Dr. Busch and his team at the Busch Chiropractic Pain Center have helped thousands of patients relieve their pain, avoid surgery, and get back to enjoying life.

We're proud to say that "our patients are the proof!"
